Didactive Project Launches to Empower Self-Agency in Vocational Education

Welcome to the first newsletter of the Didactive Project! We're excited to share our journey and goals as we launch this initiative aimed at transforming vocational education across Europe.

About Didactive

The Didactive Project, supported by the Erasmus+ Program, focuses on removing barriers in vocational education and training (VET). We aim to create inclusive learning environments that empower individuals—particularly those in vulnerable situations—to take control of their personal and professional growth. This is vital to fostering full, active participation in today's society and workforce.

Our Goals

- Empowering Self-Agency by developing innovative training methods that encourage self-agency, enabling individuals to shape their own learning paths and career futures.
- Supporting VET Professionals by equipping them with skills to assist adults facing today's challenges.
- Raising awareness in the VET Sector on the subject and promoting the importance of accessible, inclusive VET systems for individuals and communities across Europe.

Our Approach

Didactive introduces a flexible and inclusive approach tailored for the evolving needs of a knowledge-based society. By updating VET practices and developing new support methods, we aim to help adults at risk of social or work exclusion gain more autonomy and resilience.

Kick-Off Meeting Highlights

Our partners recently gathered in Vienna for the project's kick-off. Key topics included:

- Defining Agency Competence: Building a shared understanding of agency as a core skill in VET.
- Methodological Framework: Laying the groundwork for a blended training course.
- Communication Strategy: Outlining our approach to effectively share project insights and outcomes.

Next Steps

Stay tuned for updates as we develop and test our training models across Europe! We'll keep you informed on progress, tools, and ways you can connect with our work.

Thank you for joining us on this journey to make vocational education more inclusive and impactful. Together, we're empowering change!
